From our home...

It all began in 1973 when a former flooring installer created a small business from his family home.

With the belief that luxury vinyl flooring shouldn't just be practical, it needed to be beautiful as well, Karndean was formed. The team set out to travel the world, seeking inspiration from natural materials for what now are the most realistic luxury vinyl flooring products on the market.

The Karndean team worked out of that house for several years with the family's trusty dog Smokey, the Great Dane who is still present on Karndean's logo today. For the family and Karndean's early employees – many who are still working with us today – these years bring back many fond memories.

Now stretching across the globe, far beyond the walls of the original house, we continue to move forward with the same passion to deliver beautiful, innovative designs for your home.

...to your home

Many elements must fit together, from furniture to flooring, to fixtures and everything in between. Where to begin?

We begin a new design with inspiration, and we are most inspired by nature. What's your design motivation? Is it aesthetic, such as a cushion or the perfect paint chip? Or is it lifestyle, a place where you can dance in your pyjamas and your babies (both two- and four-legged) can roll around and play?

No matter what drives you, Karndean Designflooring was created with your needs in mind. We see flooring differently and by combining original features with cutting edge design, you can create a simply beautiful floor that you will love for a lifetime.

Our simple method will help you navigate the selection process and design your perfect floor, taking you beyond picking a colour and measuring the room. Let's get started!

Maya's story

A freelance journalist, blogger and busy mum, Maya takes us through her 1970s inspired house and her journey to picking a Karndean floor.

* Design strips only compatible with gluedown format.

*Almost 50 years
of experience*

At Karndean, we see flooring differently.

We travel the world in our quest to bring you exceptional floors that inspire and delight. From the ancient forests of Europe, to the remote Australian outback and beyond, we seek out expressive and intriguing forms in the natural world to influence our unique floor designs. By combining these original features with cutting edge design, we create simply beautiful floors that you'll love for a lifetime.

For the family and Karndean's early employees, many of who are still working with us today, these years bring back many fond memories. Now stretching across the globe, beyond the walls of the original house, the Karndean family and employees continue to move forward with the same passion to deliver beautiful, innovative designs for your home.

1973...

Look out for Smokey throughout the brochure. He really is still part of the family.

Designed for you

Every one of our floors is unique to us having been lovingly created by our in-house team. Our product designers select natural woods and stones to work with, taking the time to carefully replicate the knots, grains and textures found in these products into our designs. Working with these products they apply different techniques of staining, brushing and oiling to name a few to create the perfect look and feel bringing you a simply beautiful floor.

Did you know?

Back in 1973, Smokey the Great Dane worked alongside the family and is still present on our logo today.

□ Country Oak LLP92

Pet friendly

From muddy paw prints to household accidents and anything in-between, our low maintenance floors are designed with pets in mind.

Kid friendly

Karndean floors offer kids a safe and comfortable space to play, and parents an easy-to-clean surface.

Durable

Karndean Designflooring gives you the look and feel of natural products with the durability and resilience of luxury vinyl.

Designed for *comfort*

We know you need a floor to be durable and stay looking good no matter what life throws at it. All Karndean floors are finished with our K-Guard+® protective coating, which helps against day to day wear. Each of our floors comes with a lifetime guarantee offering you peace of mind for years to come.

Each of our floors is comfortable underfoot, perfect for all the family. Quieter than other flooring alternatives, some of our ranges achieve the Quiet Mark for sound reduction. For added warmth and comfort, all Karndean floors are compatible with underfloor heating.

□ Hartford LLP112

Low maintenance
Easy to clean with a sweep and mop. Doesn't require sanding, varnishing or staining.

Phthalate free
We pride ourselves on environmental awareness in the manufacture and supply of all our products, and can proudly say that all Karndean products are phthalate free.

Designed for
peace of mind

■ White Painted Oak KP105-7 | SCB-KP105
■ Pale Limed Oak KP94-7 | SCB-KP94

Quiet underfoot
Karndean Designflooring offers formats that reduce noise transfer by up to 22dB – perfect for upstairs bedrooms, playrooms or attic/loft conversions.

Design capabilities
The Design flexibility of Karndean flooring allows you to create your own unique and personalised look in any space.

Lifetime warranty
Not only is a Karndean floor unique to your home, but it's guaranteed to last for years to come.

□ Weathered American Pine LLP335

Create more than a floor,
create a Designfloor

1

Imagine your space

Something as simple as drawing a picture of your space will put you in a creative mindset.

2

Design ideas

Take inspiration from our installation patterns guide to design your floor.

3

Colour inspiration

Our flooring collections are on-trend, ranging from distinct, classic and elegant woods to stones. They offer colour variations from light to dark and everything in between.

4

Which format?

With more than 180 colours across three formats, we're sure to have a floor that fits your design style.

1. Imagine your space

On the next pages, draw the space that you will be updating by following the example below.

Start with the shape of your space and entry points.

How do you walk through the room?

Are there any adjoining rooms?

Sketch fixtures in your space.

Take your space from sketch to reality.

Light Barnwood RKP8207

Now it's your turn...

Design tip

When planning the design of your floor, think of your most common footpath. Have your local retailer install the floor in that direction to guide guests through the space.

Design your dream floor at home!
Try our Floorstyle visualiser www.kardean.com/floorstyle

2. Design ideas

Choosing your laying pattern

It's not just the floor you choose, but the direction you lay it that makes a lasting impression. So how do you know which way you should lay your floor? Keep these pattern options in mind as you browse our three product constructions, as select floors cannot be laid in all of these patterns.

Use our pattern guide for inspiration or to share with your local retailer.

3. Colour inspiration

When choosing a floor, take into account all of the surrounding materials and finishes. What colour will the walls or cabinets be? Will you have stained or white skirting boards? All of these items play a part in narrowing down your flooring choices.

At a glance
See all Karndean floors organised by colour from page 153!

Create a moodboard

Remodelling a whole room and not sure where to start? Create a moodboard with the colour scheme you have in mind for the room. Include items like paint samples, pictures from magazines, wallpaper samples - anything that gives you inspiration for your new space!

We understand how difficult it can be to decide on the right colour for your home which is why we've set up our FREE sample service to help you find the perfect colour!

Whether you're renovating an existing home or building a new home the quality of the flooring is an important consideration.

Choose from a variety of colours across our ranges and formats. Our quick and easy online ordering process will have the samples sent directly to your door, to help with your decision making.

Interior trends

Home as a sanctuary

Redefining the way we live

Over recent years, the disruption of the global pandemic has only added to a growing sensory overload of modern living. In response, we see that people are seeking a life that's more authentic, simpler and closer to nature. At Karndean Designflooring we set out to understand what that means in design trends. While we identified four clear and different directions in interior styling, they share a common heart: the home as a sanctuary.

When the world stayed at home, it made us rethink our 'four walls'. 'Home' has always been our private retreat from the world, but now more than ever it has become our sanctuary - a place of personal comfort, nurturing and cocooning. For many, home also became a place for working, for home-schooling and the place where we found our entertainment and explored new interests. This multi-purposing of our living spaces is another key driver of the emerging design trends that deliver practical and versatile functionality while never compromising on comfort or style.

Focus on style

Smooth Operator

■ Lampione LLP147

Pared-back palettes layer mono-colour shades and therapeutic tones over clean interior lines.

While drawing heavily on a retro aesthetic, Smooth Operator is as fresh as tomorrow. It perfectly balances the current yearning for newness with the reassurance of the familiar.

Classical touches such as arches and bespoke built-in furniture set a luxurious scene. Monumental materials like stone and concrete are made soft, and timber becomes fluid as sinuous, sensual curves deliver both visual and physical comfort and reassurance.

Focus on style

■ Stained Acacia RKP8213

With no compromise to comfort or style, Timeworn celebrates the imperfections and imperfect character of natural materials.

Timeworn Treasures is an antidote to the fast pace and overstimulation of modern life along with its ever-changing fashions and endless consumer choices. Think raw-edged timbers and the organic textures of stone. Luxurious leathers and cosy lighting. And the reassuring artisan's touch of handcrafted furniture, fabrics, ceramics and art.

■ Stained Acacia RKP8213

■ Stained Acacia RKP8213

Focus on style

Firm Foundations

Firm Foundations combines the strength and resilience of nature with a raw-edged and utilitarian industrial vibe.

Firm Foundations is a timeless design direction that delivers just that. While this look is all about dependable function and practicality, it's also uncompromising in bringing understated elegance and comfort to contemporary living spaces.

Think dark timbers, exposed brick, polished concrete and terrazzo. Think modern statement furniture and a moody dark palette with bursts of colour that provide a backdrop for optimism and a comfortable life of luxury.

Focus on style

Golden Age

In a time of change and uncertainty, the Golden Age palette taps into the comfort of the familiar. Organic colours of the earth, timbers and natural fibres bring the grounding and nourishing power of nature into the home.

The Golden Age is all about interiors that spark joy and a closer connection to nature. As we reconnect to the things that matter most, an organic palette, materials inspired by nature, and the artisan's hand in furniture and furnishings come together in wholesome, energising and artful interiors. Bring a comforting glow to interior spaces all year round.

4. Which format?

We offer three types of product formats: loose lay, rigid core and gluedown.

Loose lay

Choose loose lay when...

- You want to reduce noise transfer, such as in loft conversions or upstairs rooms.
- You want a quick installation.
- You have a smooth or damp subfloor, sometimes found in new builds or extensions.

See page 49 for more details.

-  Individually replaceable
-  Quick and easy to install
-  Reduces noise transfer
-  K-Wave® friction grip backing

Rigid core

Choose rigid core when...

- You want superior acoustics, such as in loft conversions or upstairs rooms.
- You want a quick installation.
- You want to install over an existing floor such as ceramic tiles or floorboards, or uneven subfloor.
- You have a damp subfloor, sometimes found in new builds or extensions.

See page 51 for more details.

-  Click-locking mechanism
-  Reduces noise transfer
-  Quick and easy to install
-  Installs over most existing hard floors

Gluedown

Choose gluedown when...

- You want to create your floor, with different laying patterns, design strips and decorative borders.
- You want to be able to mix stone and wood designs and create a completely bespoke floor.
- You have a completely flat, dry subfloor, prepared by a flooring professional.

See page 53 for more details.

-  Individually replaceable
-  Design capabilities
-  No expansion gap required
-  Individual, glued down planks and tiles

Light Barnwood RKP8207

Choose your format

Loose lay

Featuring our K-Wave® friction grip backing that holds the product in place using a combination of weight and friction, our loose lay products require only minimal adhesive. Available in Karndean LooseLay Longboard and LooseLay Originals.

With our LooseLay Longboard and LooseLay Originals ranges, you can have a loose lay floor with design flexibility and even incorporate multiple colours into one design. You can carry your chosen design throughout the space without the need for transition strips.

This is our most ergonomic flooring option, meaning it provides the most cushioning underfoot.

□ Vulcano LLT211
Concrete

□ Weathered American Pine LLP335
European Oak

Why would you want a loose lay floor?

- Individually replaceable:** Should you need to replace a piece, simply lift the damaged plank or tile and replace with a new one.
- Quick and easy to install:** Our loose lay ranges can be fitted over most existing hard floors.
- Reduces noise transfer:** Our loose lay ranges are perfect for projects where you want to reduce noise levels in the room below.
- K-Wave® friction grip backing:** Our friction grip backing creates a strong bond to the subfloor.

What's great about loose lay not being fully adhered to your subfloor is that if you need to replace an individual plank or tile, it's quick and easy to do so!

□ Lampione LLP147
European Oak

Contact your local retailer. Go to www.karndean.com/findaretailer

Choose your format

Rigid core

We offer three industry-leading ranges of rigid core: Karlok, Van Gogh and Knight Tile.

River Stone RKT3017-G

Rigid core is a type of floating floor that clicks and locks into place and can be floated over most existing hard floors - no adhesive is necessary.

An ideal alternative to laminate and engineered hardwood floors, Karndean Designflooring rigid core offers realistic visuals with the durability and waterproof qualities of luxury vinyl.

Oxford Grey RKT2409

Why would you want a rigid core floor?

- Installs over existing hard floors:** Rigid core can be floated over most existing hard floor coverings.
- Reduces noise transfer:** The premium, pre-attached acoustic foam backing reduces noise transfer to rooms below, making it perfect for upstairs bedrooms, playrooms or attic/loft conversions.
- Quick and easy to install:** Click-locking systems allow the installer to quickly drop and lock planks together, meaning less upheaval and disruption to everyday life.
- Click-Locking mechanism:** Get all of the benefits of rigid core with the added security of a superior vertical click-locking mechanism.

Waterproof K-Core® technology allows for a fast installation over most existing hard floors and uneven subfloors.

River Spotted Gum SCB-VGW131T | VGW131T

Refer to page 167 for colour coordinated accessories

Smoked Maple VGW128T | SCB-VGW128T

Contact your local retailer. Go to www.karndean.com/findaretailer

Choose your format

Our gluedown ranges are:
Art Select, Van Gogh, Opus and Knight Tile.

Why would you want a gluedown floor?

- Individually replaceable:** Should you need to replace a piece, simply lift the damaged plank or tile and replace with a new one.
- Design capabilities:** With our gluedown ranges, you have complete control over the look of your floor, from the lay pattern to the incorporation of our design strips and borders.

Glued down: Planks and tiles are permanently secured with Mega Bond glue to the subfloor.

No need for an expansion gap: can lay straight up to the skirting board without removing.

Because gluedown planks and tiles are installed individually, these products offer the highest level of personalisation. This allows you to create a layout and design that makes your home more stylish and functional, while remaining affordable and faster to install than other types of hard surface flooring.

Contact your local retailer. Go to www.karndean.com/findaretailer

The design you want in the format you need

We know that choosing a floor that suits you and your home can be challenging...

That's why we offer many of our beautiful designs in dual format. As these are available in both gluedown or rigid core, you can enjoy the design you want, in the format you need.

Gluedown

With our gluedown ranges you have complete control over the look of your floor, from the lay pattern to the incorporation of our design strips and borders.

- Individually replaceable
- Design capabilities
- No expansion gap required
- Individual, glued down planks and tiles

Rigid core

Our rigid core hybrid ranges feature a click-locking system that allows them to be installed over most existing hard floors, without the need for adhesive.

- Click-locking mechanism
- Reduces noise transfer
- Quick and easy to install
- Installs over most existing hard floors

Choose your format

Gluedown

Why choose a gluedown floor?

- **No expansion gap required:** Can be fitted hard up against walls and fixtures with no need for accessories to cover the gap.
- **Personalisation:** With our gluedown ranges, you have complete control over the look of your floor, from the lay pattern to the incorporation of our design strips and borders.
- **Glued down:** Planks and tiles are permanently secured with Mega Bond glue to the subfloor.

Rigid core

Why choose a rigid core floor?

- **Installs over existing hard floors:** Rigid core can be installed over most existing hard floor coverings.
- **Acoustic qualities:** The premium, pre-attached acoustic foam backing reduces noise transfer to rooms below, making it perfect for upstairs bedrooms, playrooms or attic/loft conversions.
- **Quick and easy to install:** Click-locking systems allow the installer to quickly drop and lock planks together, meaning less upheaval and disruption to everyday life.

Where classic charm meets

Contemporary sophistication

IRONBARK

Ironbark is a premium native Australian hardwood recognised for its general durability and resistance to insects such as termites. The natural rouge colour of the original hardwood was an obvious inclusion to our collection because of its beautifully deep hues, varying across the straight and tight cathedral grain elements indicative of the natural product.

EUROPEAN OAK

Traditionally, tall and ancient oaks were harvested for building and flooring. Valued for hardness and strength, the timbers were prized for ship building and wine barrel making, while furniture makers also celebrated the beauty of their grains. This collection is inspired by the finest examples of European Oak timbers and floors, and offers an outstanding choice of quality flooring in the classic colours and textures of the finest European Oaks.

LIMED OAK

Traditionally in Northern Europe, oak floorboards were washed with caustic lime to help preserve the timbers and protect them from bugs. Over time, the distinctive chalky wash of residual lime on the oak came to be more appreciated for its beauty than its protective qualities. Our Limed Oak collection captures the authentic looks and texture of classic limed oak boards in a versatile choice of floor planks.

CONCRETE

The concrete look is no longer viewed as something grey and dull. And while its origins are in industrial construction, it's no longer limited to industrial-inspired design. We've experimented with different colouring techniques create a collection of concrete inspired tiles that brings depth, character, a new warmth and elegance to the popular look of concrete.

PIETRA

The monolithic style of Pietra has long been a favourite of innovative architects but today its use in both domestic and commercial settings is booming. Slab floors have always been a minimalist's dream but today they're increasingly popular with a wide range of architectural and interior styles. Our Pietra collection captures the subtle patterning, textures and strength of stone in our luxury vinyl floor tiles. It can bring a timeless and understated appeal to any space.

Wood and stone with a

Soul and a story

SPOTTED GUM

The Spotted Gum tree flourishes in coastal areas along the Eastern seaboard of Australia, ranging from the mountains of the Great Dividing Range to the sunshine coast of Queensland. Large amounts of sapwood can be seen within the boards and this adds to the blend of features that make the product so distinctive. Even when coloured, the sap creates a tonal plank that will work in all interiors.

LIGHT BARNWOOD

The marvellous rusticity and rotary saw markings of this salvaged American lumber create an unmistakably unique floor with unlimited potential for application. The heavy tonal shifts within this product have been enhanced by layers of natural, hand-applied finishing oils. The lively colours and character shifts generate an eye-catching floor and promote the wood's extreme variation of features, providing a real statement floor for any interior.

MARBLE

Calacatta marble has long been recognised around the world for its striking beauty and was allegedly Michelangelo's favourite stone to carve from. It originates from one single source: a mountainous area of Italy known as the Apuan Alps, making the original product both limited and expensive.

Calacatta has two essential features: a pure white background and clear, bold veining. These make it unique in the world of marble and our design team have spent over a year developing our first Calacatta design to ensure that our recreation of this beautiful stone, in an LVT format, reflects the original's quality and aesthetic.

Our Palazzo Marble design features the classic grey veining that graces palaces and cathedrals throughout Italy, a cool classic that oozes elegance.

CONCRETE

The popularity and appeal of using concrete as a key theme for interior finishes has soared over recent years, and become the perfect canvas for industrial inspired contemporary design. 'The Concrete Look' is no longer viewed as something grey and dull. It has evolved into a clean contemporary style, that features much depth and character.

Our designers experimented with different colouring techniques to transform the classic, neutral design into an incredibly versatile, contemporary set of concrete look tiles. Each colour option highlights different features contained within the design, and the tonal shift within the individual tiles creates a visually appealing palette. The result is an attractive product that adds a new warmth and elegance to a solid industrial material, making it appealing for both commercial and residential applications.

SYCAMORE

European Sycamore belongs to the Acer family, along with maple, and features many of the same characteristics. The most striking feature of the tree is the bark pattern comprised of warm-grey outer bark that peels off in large patches to reveal the wood within. The wood has a fine, close texture and in its natural form tends to be a light, almost white colour, making it an ideal colour carrier.

OAK ROYALE

Inspired by the natural warmth of traditional oak flooring, our Oak Royale collection is one of a kind, featuring an array of realistic oak grains and wide range of colour hues.

With all the charm of aged wooden floor boards, this beautiful collection offers some of our most intricate designs featuring realistic grain and knot details, to create a truly authentic look.

Designed in a larger plank format with a unique satin finish, each Oak Royale plank has been crafted to reflect the gentle ripple and handscraped texture of real oak flooring.

Sought-after designs tailored to
Modern trends

WALNUT

These fantastic nature-grade, American black walnut boards were hand-selected due to the beautiful warm tones. The wide 6" boards, which are uncommon and expensive in real walnut, allow the colour to drift from chocolate browns to dark mauves - creating a fantastic natural tonal floor and a rich canvas for any interior.

Accessories and design elements

We offer a range of design extras to allow you to add your own Designflooring inspiration to complete your floor.

Rigid core accessories

To complete your rigid core floor, we have five colour coordinated accessories for each design. Our accessories are custom made with unique features such as tapered base plates to suit inbuilt underlay and come in convenient 2.3m lengths for ease of transport and handling. All our accessories are suitable for residential and light commercial use.

Multi Trim

This trim comes with three inserts to allow for joining to a range of alternative materials of different thicknesses. As its name suggests, the Multi Trim fulfils a number of functions.

- 1. Expansion Joint cover.** For installations over 15m in length or width an expansion joint must be made (usually placed across a door opening). floating floor and protection from the pins in carpet smooth-edge, as well as normal height transitions.
- 2. Transition.** For joining to carpet where the trim provides cover for both the expansion gap of the
- 3. Reducer/Ramp.** The top cover can be angled to provide a reducer strip down to substrate level, or for adjoining materials of different heights.

Expansion Joint Cover/Transition

Reducer/Ramp

Edge Cap

Edge Caps are one of the most common profiles. They can be used for a neat finish against sliding doors, full height floor to ceiling windows, carpets, tiled areas and other floor finishes of similar height. This profile is glued to the floor and the floating floor slots into the trim, it has 19mm top coverage.

Split Edge Cap

The Split Edge Cap is an easier to install alternative to the Edge Cap, especially on that all too challenging last row of planks. The base profile is installed prior to the installation of the floor and then the colour coordinated top cover is tapped into place with a rubber mallet to hide the expansion gap.

A great option for DIY installers, the Split Edge Cap is a great solution for finishing to window frames, sliding doors or as a sleek alternative to traditional Scotia.

Scotia

Scotia is designed to cover the gap between the wall and the flooring after the floor has been laid. Our scotia measures 19mm by 19mm and is made from high-quality moisture-resistant WPC. It has just the right amount of flexibility to follow any slight inconsistencies in the wall.

Stair Nosing

Stair Nosing is a trim used for finishing of steps and staircases neatly. This trim is fixed to the edge of the step using permanent construction adhesive and mechanically where required.

This is used as a transition trim to join step treads and risers (upright, vertical part of the step neatly). The trim accommodates expansion for both tread and riser.

Design strips

To complete the look of a gluedown design, add a decorative strip. These can be placed between tiles to create a natural grouting effect or to enhance the design of your floor. We have a range of design strips in this section that are available to you.

Choose from a range of tones and textures, available in 10, 5 and 3mm wide, unless otherwise specified.

Note: Design strips are only compatible with gluedown products.

Van Gogh compatible design strips are available as special order only and longer lead times may apply.

Resources and further information

We've worked hard to produce a comprehensive collection of resources both online and offline, from our Floorstyle interactive room viewer and samples service to our range of cleaning and maintenance guides. We're here to help when selecting and caring for your Karndean Designfloor.

Transferable purchase warranty

If you purchased your Karndean Designflooring through a Karndean Retail Partner your warranty will have the added benefit of it being transferable. This means that if you sell your house within your guarantee period, you can pass the warranty on to the new owners.

To qualify for a transferable warranty, you must:

- Adhere to the terms and conditions outlined in the Purchase Warranty
- Purchase from one of our retail partners and they will provide us with your email address to enable us to send you your transferable warranty

For more information or to obtain your Purchase Warranty, please speak with your local flooring retailer or contact our **Customer Service Team**.

The lifetime residential warranty is defined as 35 years and protects against product wear out and manufacturing defects. What's more, the warranties are now transferable to any future owners (subject to the terms and conditions of the Transferable Purchase Warranty).

Cleaning and maintaining your Karndean floor

Karndean Designflooring is hardwearing and easy to look after. Our enhanced surface treatment helps protect against everyday wear, spills and scuffs. This makes it easier and more environmentally friendly to clean and maintain, giving you peace of mind that your Karndean floor will look great for years to come. We have a dedicated section on the website with videos that explain how best to look after your Karndean floor and covers lots of frequently asked questions from our customers.

Visit www.karndean.com/cleaning for more information.

We also supply our own Floor Care Kits that you can order from your local retailers including everything you need for a simple cleaning routine.

Inside your Floor Care Kit

Regular cleaning with a pH neutral cleaner such as Karndean Clean will help keep your floor at its best.

Over time you may want to treat your floor to some extra care. We recommend every six to twelve months, depending on wear, that you strip and refresh your floor using Karndean Remove and Karndean Refresh, to further enhance its look and durability.

Visit us online at www.karndean.com, where you can...

Find your nearest recommended retailer

Use our online search feature to find your nearest **Karndean Designflooring** recommended retailer. Leave your details for a retailer to contact you for a free measure and quote.

Imagery and Design Reproduction

Photography and print cannot always produce a perfect representation of our products. This includes colour, pattern variation and installation elements used. For this reason we strongly recommend obtaining a product sample and where possible viewing a larger sample in-store. We also recommend visiting our website for information on installation, after care and product selection: www.karndean.com/advice.

We love developing new ideas and improving on our existing designs which means that sometimes products are withdrawn at short notice. We hate to disappoint and will work with you to find an alternative design. Please contact Customer Service for more information.

Karndean Designflooring owns all their designs and are protected by copyright.

Why not visit our Design Showroom?

At our headquarters, conveniently located in Melbourne, just off the Eastlink & Monash freeways, we always have the latest products on display, with over 500m² of ideas and designs to inspire you.

Enjoyed your visit to the Karndean Showroom?

We'd love to hear about it.
Give us a Google Review!

Explore our full range of Karndean Designflooring products in our beautiful state of the art showroom. Our knowledgeable and friendly Design Consultants are here to help you with expert guidance and advice for all your Karndean flooring needs.

Compare our wide range of colours, textures, patterns and sizes with large areas of laid and wall-hung flooring panels. You're welcome to take home full-size samples to try in your own space, at no charge.

Environmental

Karndean Designflooring and the environment

At Karndean Designflooring we find inspiration for our products in the beauty of the natural world and feel passionate about bringing this into every product we create. To keep our environment protected we do everything we can to continuously improve our manufacturing processes to ensure sustainability whilst delivering the best value. We have always aimed to make stylish and durable floors with the lowest possible impact on the environment, and have never had to compromise quality or performance to comply with legislation or meet environmental requirements.

Karndean Designflooring is a member of the Green Building Councils of Australia and New Zealand and complies with their requirements under GreenStar. All Karndean products and accessories are manufactured in facilities certified to the ISO 14001 Environmental Management and ISO 9001 Quality Management International Standards. Our approach is based on the use of recycled materials in our floor coverings and ensuring that the finished product is suitable for recycling if required.

What's more...

- All of our packaging is made using recycled material, which we continually review to ensure that it is environmentally friendly and fit for purpose
- We use individual logistical solutions to efficiently and effectively transport our products
- Our storage facilities use high density racking to maximise capacity and minimise impact
- Our offices are introducing innovative energy saving techniques
- We are members of the Green Building Council Australia (GBCA) and Green Building Council New Zealand (NZGBC)
- Our products qualify for eco-points towards GreenStar building projects
- All of our adhesives are water based, solvent-free, have low VOC emissions and are GreenTag certified

GreenStar GreenTag™ certified

The majority of Karndean luxury vinyl ranges are fully certified to Global GreenTag, the third party multi-criteria, consensus based and externally verified Type 1 eco-labelling program. This is one of the largest product sustainability certification systems in Australasia and the only certification mark approved by the Australian Competition and Consumer Commission (ACCC).

GreenTag comprises two certification systems and the majority of Karndean Designflooring luxury vinyl is certified under both.

LCARate™

Life Cycle Analysis is for all products and all rating tools that engage LCA with separate output called an Environmental Product Declaration (EPD), which is a summary LCA report used for certain credits in some rating tools for GreenStar.

GreenRate™

GreenRate is a straight Type 1 eco label developed to meet the requirements of specific green building rating tools. It includes indoor environmental air quality: volatile organic compounds compliant (IEQ VOC) and reduced exposure to pollutants. GreenRate is offered in three levels of quality from Level 'C' up to Level 'A' relevant to GreenStar in Australia and New Zealand.

Karndean Designflooring LVT ranges and adhesives are fully certified under GreenStar GreenRate Level 'A', plus under international FloorScore Indoor Air Quality Certification for low emitting VOC's. Also certified to LCARate "silver streamline".

Learn more and download Karndean Designflooring's GreenTag certificates on our website.

The future

Our continued product innovation focuses on reducing our environmental impact and complying with environmental legislation and recognised certifications worldwide. Our aim is to remain the leading supplier of LVT flooring and to have a market-leading environmental record of achievement through the development of sustainable products and processes.
